

## • Sanctuary Dental Dam

The world's first powder-free Sanctuary dental dam, **Sanctuary Dental Dam** offers better comfort, making it a better alternative compared to ordinary dental dam.

- Sanctuary™**
1. **Sanctuary Dental Dam** is manufactured using a special casting procedure which allows for uniformed thickness along the entire piece. This makes it equally tear tolerant in any part of the dam which facilitates the ease and practicality of use.
  2. **Sanctuary Dental Dam** guarantees minimum expansion of 10 times from any hole punched, significant tensile strength above 20MPa and a low modulus level, which are crucial and necessary for the practical and efficient application of the dam.
  3. **Sanctuary Dental Dams** are developed for the ease of use and comfort of patient. It is powder free and mint scented making the procedure more comfortable for the patient.
  4. **Sanctuary Dental Dams** are available in both latex and non-latex.

## • Sanctuary Dental Dam Kit

A new introduction into the market, **Sanctuary Dental Dam Accessories** offers innovative characteristics and further facilitates the use of Sanctuary Dental Dam.

1. **Sanctuary Dental Dam Clamps** are engineered with "flexible but strong" concept, using a double vacuum-melted and martensitic age-hardenable alloy - the Stainless Steel Grade 465, which has achieved tensile strength above 2000 mPa. This assures the clamps allow a good retention of its original shape through repeated usage.
2. **Sanctuary Dental Dam Punch** is engineered to withstand the repetitive stress in application during every punch; developed for the purpose of durability in obtaining a perfect punch hole on a dental dam.
3. **Sanctuary Dental Dam Forceps** is light weight with easy gripping handle designed to allow for easy placement of any clamp size with infinite precision.
4. **Sanctuary Dental Dam Frames** are made from high grade stainless steel and come with two sizes 105 mm and 129mm.

## • MESTRA New model saw R-080614

Ideal for individualization. The diamond disc with only 0.3 mm allows a accurate sawing of the plaster model, so assembly will be perfect.

Special emphasis on safety: cover that keeps the disc always protected, fastening system of the base with powerful grip, double operation button that requires the use of both hands to start,... These measures make an accident virtually impossible. Dimensions are also reduced. Elegant, easy to use and at an attractive price. Height x width x length: 28 x 30 x 29 cm – Saw 0.3 mm – 200 W – 6000 r.p.m. – 6 kg
